

Please note, we are postponing the Apr 4 Joint T&D Dance in Waterdown, including the AGM. We will look into a possible make-up dance, and alternate arrangements for the AGM.

Also, we have received this note from the Ontario Federation, and are in accord with the recommendation. Our clubs are advised to consider their activities in light of recommendations from public health officials..

I have seen a number of emails flying around about many things shutting down. As has been mentioned, the age group of our dancers makes it even more of a possibility that someone could fall ill.

Much of our dancing takes place in public places or in schools. We have been advised that since school are closed, we cannot have access till at least after April 5.

As a minimum, I would suggest that all dancing be stopped for at least the 3-weeks mentioned above; the situation can be re-assessed at that time based on government health unit recommendations.

Dan Roy - President
Ontario Square & RD Federation
